

pewag CWP Connex connecting link

True light blue.

This is a universal connecting link that consists of two die-forged, identical halves, a bolt and a safety sleeve and is manufactured according to EN 1677-1 with a load capacity according to G12. Thanks to the use of a safety sleeve, the design of this connecting link is extremely slim, thereby maximising the use of space – a great advantage compared to competitor products. The links may be assembled and disassembled by a competent person up to three times before the pin and the sleeve must be replaced (both are available as a spare parts set).

BG-approval is just one of the many benefits offered by the CWP Connex connecting link – the simplest way to assemble pewag winner pro chains, master links, master link assemblies and accessory parts. The surface of the master link has a light blue powder coating.

CWP Connex connecting link	Code	Load capacity [kg]	e [mm]	c [mm]	s [mm]	t [mm]	d [mm]	b [mm]	g [mm]	Weight [kg/pc.]
	CWP 7	2,360	63	11.50	13	15.50	9	51	17	0.24
	CWP 8	3,000	62	14	25	20	10	58	20	0.27
	CWP 10	5,000	78	18	21	25	13	66	22	0.57
	CWP 13	8,000	107	22	25	34	17	84	25	1.43
	CWP 16	12,500	128	27	31	41	21	120	48	2.26
