

# pewag LHWP Safety hook

## Safety first.

This safety hook corresponds to EN 1677-3 with a load capacity according to G12 and closes and locks automatically when placed under load, thereby offering even greater safety.

Thanks to the larger jaw size compared to the HSWP eye sling hook, this safety hook offers greater flexibility when it comes to possible combinations with the pewag winner pro Connex system.

The surface of the safety hook has a light blue powder coating. The hook may only be opened when it is not under load.

The locking set on the back of the hook consists of a lever, safety pin and stainless spring and is also available as a spare parts set. The parts are quick and easy to replace by a competent person. The hook also comes with BG-approval.

LHWP Safety hook	Code	Load capacity [kg]	e [mm]	h [mm]	a [mm]	b [mm]	d1 [mm]	d2 [mm]	g1 [mm]	s max. [mm]	Weight [kg/pc.]
	LHWP 7/8	3,000	126	25	25	89	25	14	34	1	0.91
	LHWP 10	5,000	158	31	28	112	31	17	45	1.50	1.56
	LHWP 13	8,000	205	41	34	145	40	22	54	2	3.50
